

# EARTH BOSS

Earth boss is designed to provide an earth connection point on steel structure. The earth boss is welded onto steel vessels, tanks and other structures.

The earth boss size, material type and design configuration can be designed to accept onshore or offshore project applications .

Diameter	Length	Thread Size	Part No.
40mm	30mm	M10	VEB4030SS
40mm	35mm	M10	VEB4035SS
